

SJABLONER TIL FLETTETE HJETER (side 24-25)

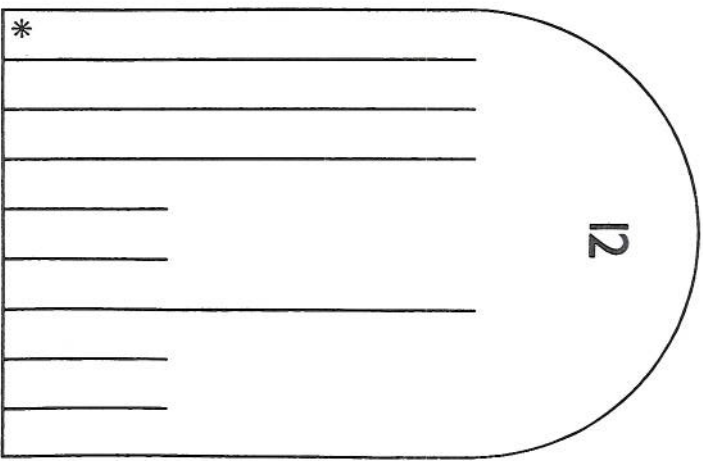

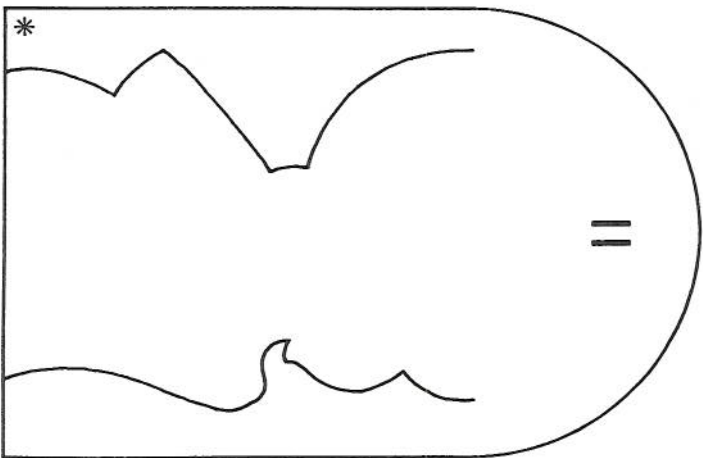

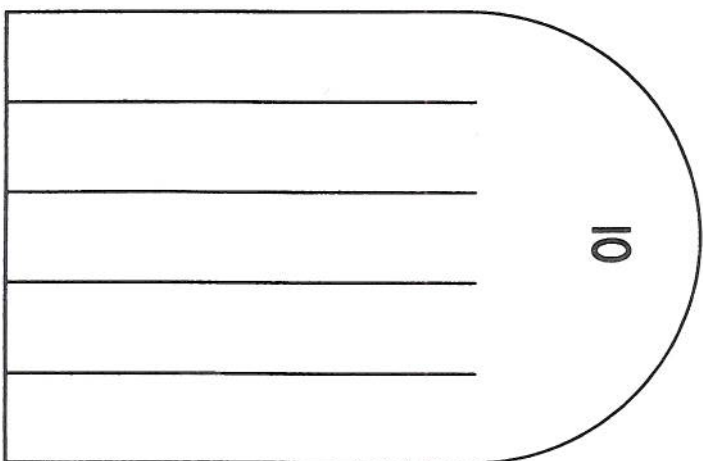

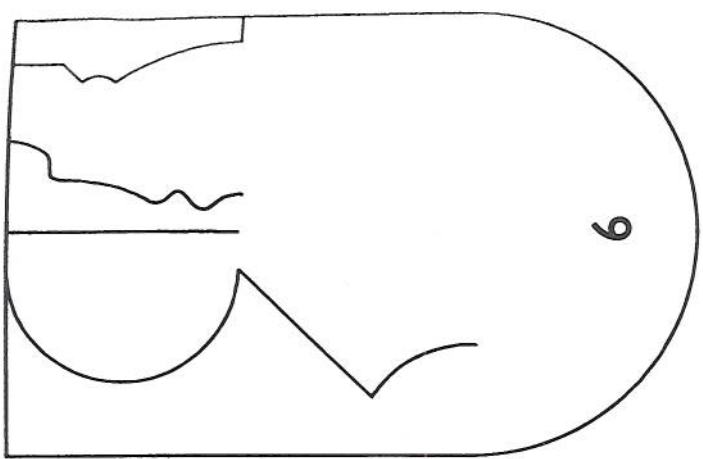

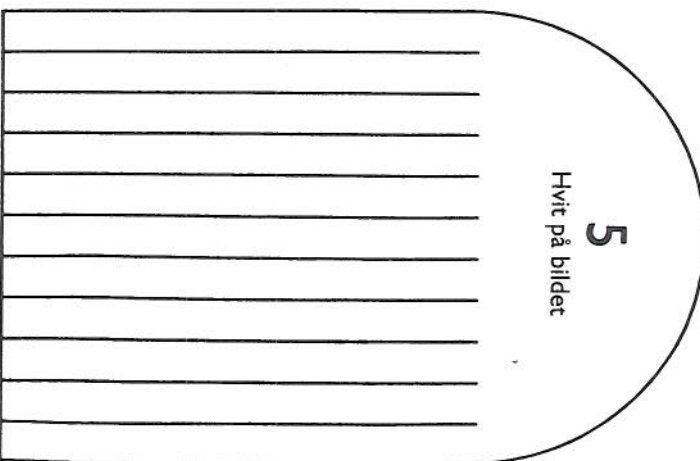

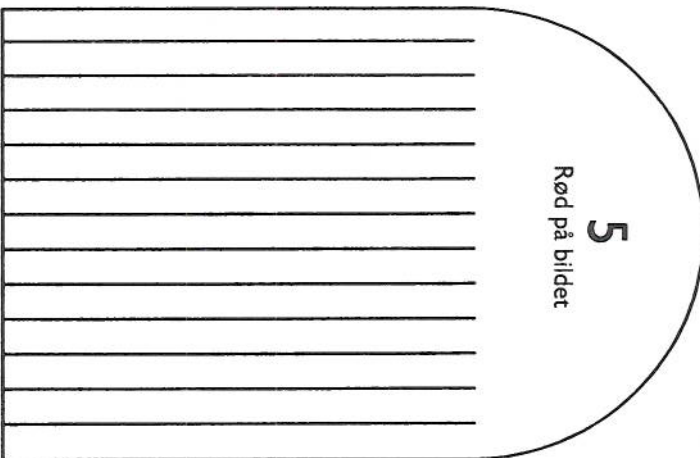

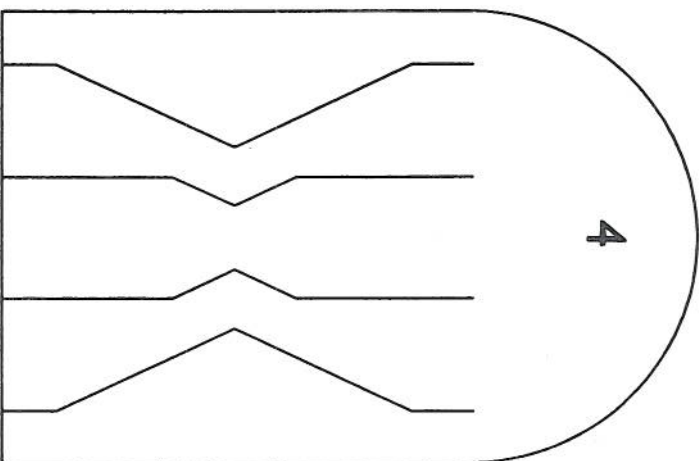

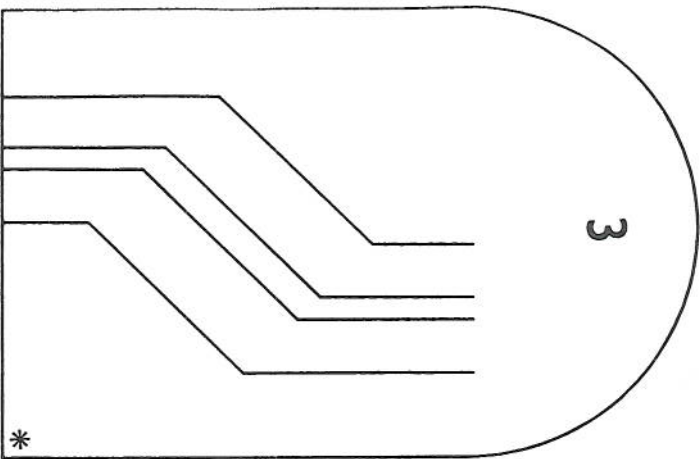

* Stjernene på noen av sjablongene betyr at hjørnene skal møtes i hjertets spiss.

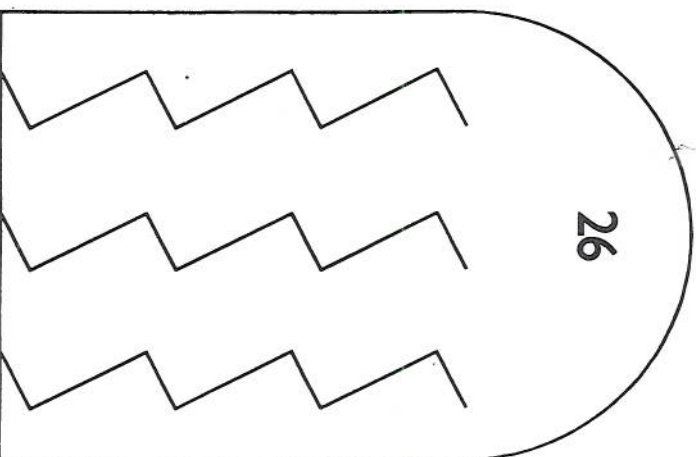

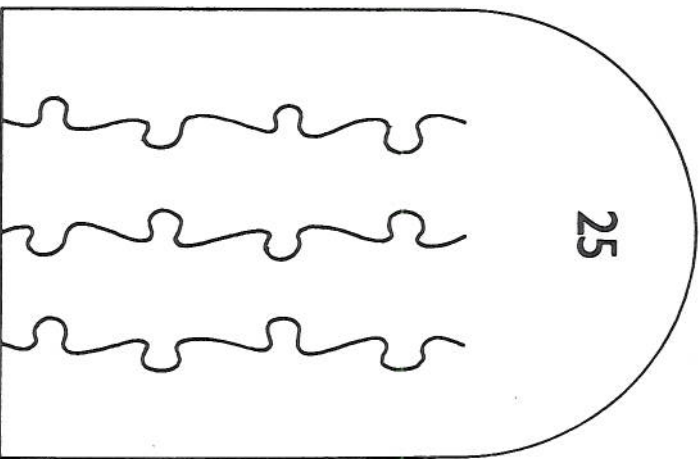

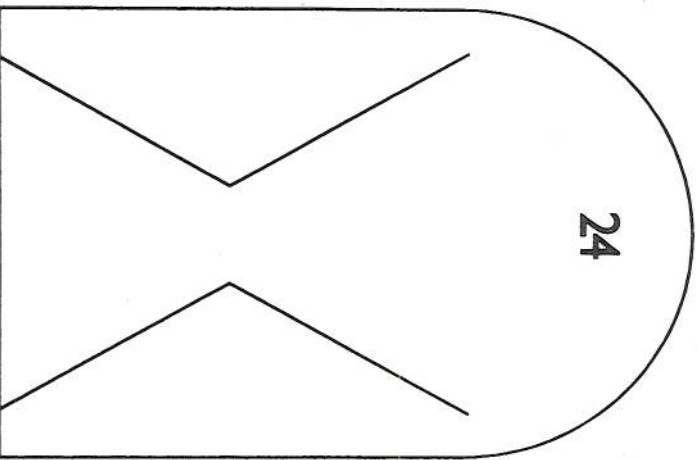

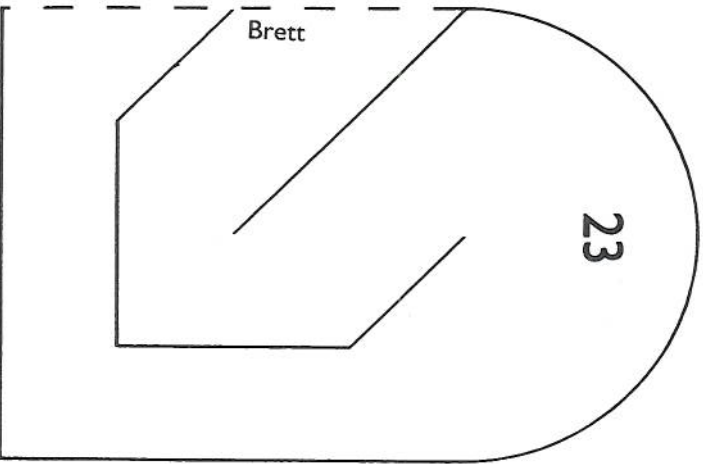

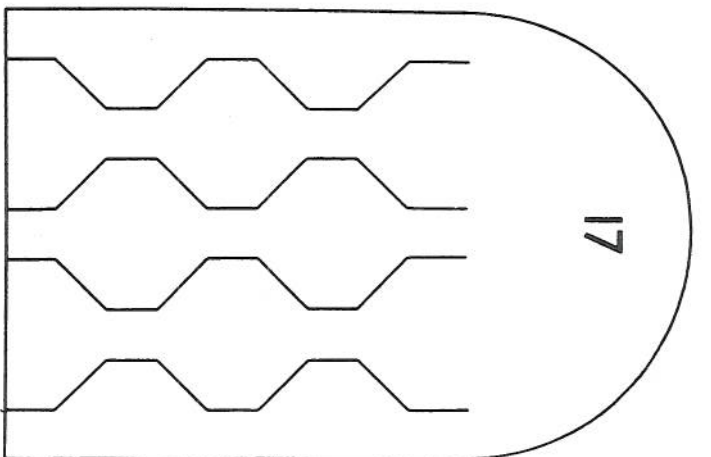

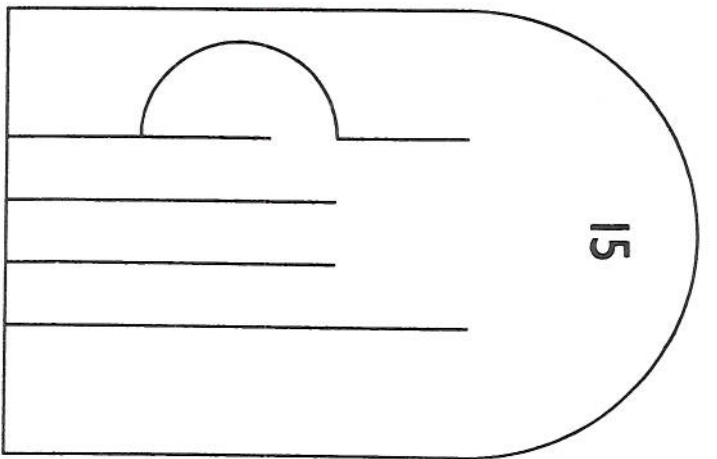

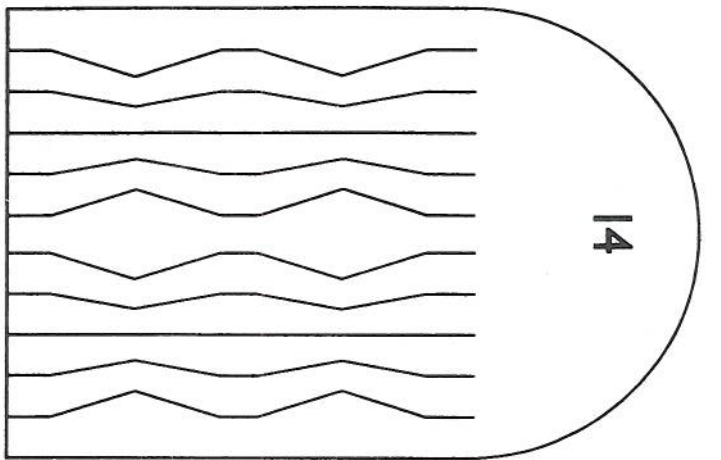

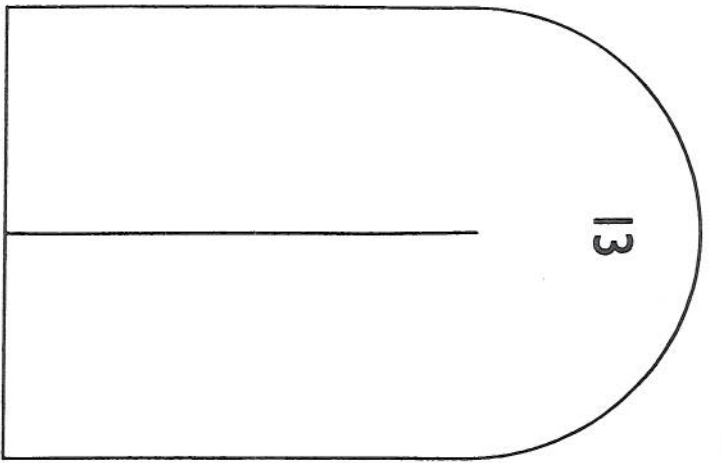

Til dobbelte, tofargete hanker brukes to strimler som måler 20 x 1,5 cm. Hver strimmel brettes på langs, slik at den ene siden blir 1 cm og den andre siden 1/2 cm. Påfør lim innvendig på strimlene og lim dem sammen på følgende måte:

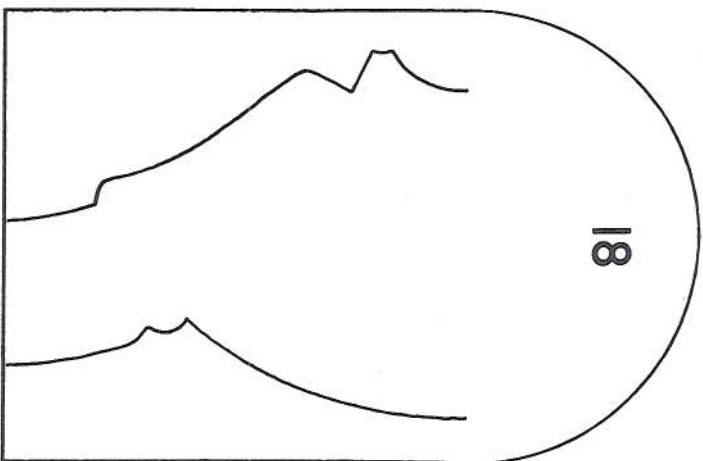

Legg merke til at på hjerte nr. 19 skjæres hankestrimlene på skrå i forhold til stripene på papiret.
